What do our customers say about us?

“ ”

Excellent support from start to finish ★★★★★

I turned to Christian for help in choosing a laptop upgrade - with various conflicting criterion. He was excellent and patient at advising via email, explaining options, and putting all the tech stuff into comprehensible language. He then spent a Sunday helping me copy everything over from various sources and ensure I was fully up and and running before leaving me.

“ ”

Wouldn't call anyone else! ★★★★★

I've worked with this consultant on a number of projects for education in our Local Authority. Christian is very knowledgeable and highly experienced, but somehow makes everything Apple seem very straightforward. If you want the absolute best in technical expertise, delivered in a professional but friendly way, then I strongly recommend Support-Expert.

“ ”

Outstanding service EVERY time! ★★★★★

Eager, enthusiastic, knowledgeable and direct. A swift operating consultant who goes the extra mile to get the job done and leave the client happy - If he can not do it, he will put you in the network of others who can. Reliable, solid and dependable. Has worked hard across many of our schools delivering solutions that Head teachers, staff and students are happy with!
